DETAILED ACTION

Response to Amendment

The amendment filed on 7/18/2005 has been received and acknowledged to be found persuasive in view of the prior art of record.

Allowable Subject Matter

Claims 1, 2-14 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: While the prior art of Hwang et al. and/or Pu et al. does describe performing an etch on metal and other layers, but fails to disclose the reactive gas combination. Sui et al. discloses several gas combinations for etching, but fails to teach why this specific gas combination is important. Therefore, the prior art of record does not describe or suggest *inter alia* the invention of forming a metal line by forming adhesive, metal and other layers, each etched independently with the particular reactive gas combination, as claimed. The claims, therefore define over the prior art. Any comments considered necessary by applicant must be submitted no later than the payments of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
